

MY ENERGY ROBOT

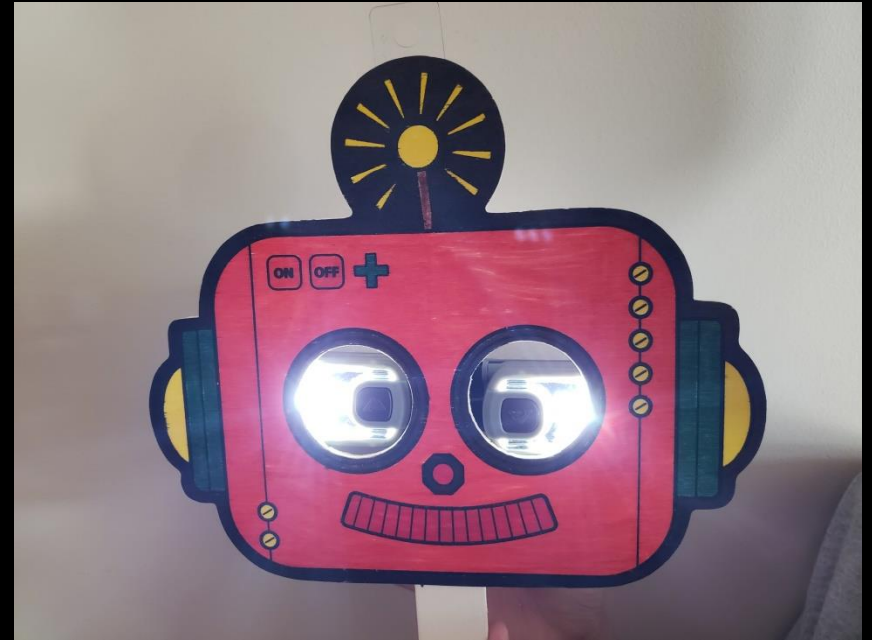

My Energy Robot

- Light Energy
- Thermal (Heat) Energy
- Electrical Energy
- Solar Energy

Light Energy

The form of Light Energy is when the eyes of the robot turn on.

Thermal (Heat) Energy

The Thermal energy in my project is when the robot makes chicken in the oven.

Solar Energy

The Solar energy of my project is when in day time the light turns off and at night the light turns on.

Electrical Energy

The Electrical energy of my robot is the battery that gives the robot energy.
